

creating connections for life

Carrieanne Piccard

Vice President and General
Manager, Transportation
Solutions Business Unit

BIOGRAPHY

Carrieanne Piccard, the Vice President and General Manager of the Molex Transportation Solutions Business Unit, is a 30-year veteran of Molex. A seasoned automotive industry executive, Carrieanne has been leading the core automotive connector segment since 2016, defining short and long-term vision, attracting, and retaining talent, and driving profitable growth through strategic portfolio management and commercial excellence. Under her leadership, Molex has become a predominant interconnect supplier for some of the largest transportation OEMs in the world, doubling NIAT and driving a 41% increase in segment revenue.

Carrieanne has held a variety of increasingly responsible roles within the business over the course of her tenure, including AQP Engineer, Project Manager, Quality Manager and finally, Product Manager, which positioned her strongly to lead and grow the core automotive connector segment in a highly competitive environment. Today, she is a valued member of Molex's Global Leadership Team. She was also a founding member of the Molex Women's Business Council and serves as a co-sponsor for the Young Professionals Group in Rochester Hills, MI, where her team is headquartered.

Carrieanne holds a Bachelor of Science in Industrial and Operations Engineering from the University of Michigan.
