Big ideas in tiny connectors.

Our 0.40mm pitch coax connectors offer you more.

Ideal for high-speed signals in hand-held devices, our 0.40mm pitch IDT, multi-coax connectors allow superb flexibility for rotating LCDs in hinge phones and cameras. Designed for automated wire assembly, this new miniature coaxial connector system carries more signals in less space, while delivering controlled impedance and superior signal integrity without drain wires.

Our IDT, multi-coax system is one reason why the world turns to Molex for big ideas when thinking small.
