PRODUCT SPEC-LOOSE PIECE BOX COUNTS

1.0 SCOPE
This Product Specification covers products shipped from Tampa Bay operations.

2.0 PRODUCT DESCRIPTION
All product that is packaged loose piece in a smallest unit container box

3.0 REFERENCE MATERIAL NUMBERS
All material numbers linked to this specification

4.0 DEFINITIONS
Loose piece: Parts that are shipped with multiple parts loose in a box (as opposed to being shipped on a reel, in a tray, or in a small bag.)

5.0 PROCEDURE
Smallest-unit-container boxes of loose piece parts, shipped from Molex's Pinellas Park facility, have a natural variance in part weight. Therefore, part count of such parts may vary within ±1% of box label quantity.
